They cut down the duties so as to make it easier to import and thus the judgment more profitable to import than under the law of 1930. Do you mean importation is more profitable than competing productions help the American producer?' (Cries 'Never,' and 'No!')

market for the American people. Two years ago, when I was in the Senate, I voted for an adequate tariff on the foreign produce, so as to make it harder for them to get into this country. I voted for the wages of American labor so that no other country could get into this country. And that is what we can preserve this country. If you vote for the tariff, that is what you are experiencing today.

I would 10,000 times prefer, as an American citizen, loving my country and loving my fellow Americans, to make it harder to make it harder for foreign produce to get into this country than to make it harder for the American citizen to get into his own country.
